

SOAP/IOP

SOAP/IOP provides additional support as individuals work on recovery within their communities and families. The program offers

- Relapse prevention and daily coping skills
- Practical recovery skills
- Connection to community-based supports
- Health/wellness & self-care education
- Additional services, including psychiatric care, medication assisted treatment, children's behavioral health services, and home-based treatment
- Group therapy (trauma, parenting, anger management, etc.)
- Family education and treatment
- Collaboration with DCF (Department of Children & Families), probation, CSP (Community Support Services), and parole

High Point accepts most insurance plans and offers a reduced fee/sliding scale to patients who qualify.

SOAP/IOP

A High Point program

SOAP (Structured Outpatient Addiction Program)/IOP (Intensive Outpatient Program) can be a major component in establishing and/or maintaining a strong, healthy recovery program
